<b>1.1 Application</b>		(1) Guidance box – Dairy products added to the list of commodities that have formal requirements; Animal products ‘not for human consumption’ added for additional clarification.
<b>1.2 Definitions</b>	<p>AP E-cert – ‘AP E-cert’ used rather than ‘e-cert’ to ensure consistency across the document.</p> <p>Several definitions have moved from other Parts to Part 1 as this terms are mentioned in this part.</p>	<p>‘casings’ – definition amended so it can be used for semi-processed casings.</p> <p>‘dairy products’ – addition of the word ‘in China’ and a guidance box to clarify definition and products with less than 50% dairy content.</p> <p>‘FSL’– addition of definition as this term is used frequently in the document.</p> <p>‘GB standards’ – addition of definition as this term is used frequently in the document.</p> <p>‘HACCP’ definition added to HACCP Plan</p> <p>‘infant and young children formula’ – addition of a new guidance box to clarify how infant and young children formula relates to</p>

		<p>complementary food and complementary food supplements.</p> <p>'meat and meat products' – addition of definition to include references to bovine, ovine, caprine and cervine carcass meat and its edible by-products including tripe (but not head, hooves, lung and intestine), red offal (e.g. diaphragm, thymus, heart, liver, kidney and pancreas) and cervine co-products (excluding velvet and antler)</p> <p>'SAT' – addition of definition for MPI System Audit Team.</p>
<b>1.3 Prohibitions and Restrictions</b>		(1) Guidance box – addition of further clarification on CBEC, including hyperlink to second positive list. Addition of China's Ministry of Commerce new announcement from 1 January 2018 regarding retail commodities imported via CBEC.
<b>1.4 Official Approvals</b>	<p>(1) Amendment of text about CNCA and AQSISQ listing to reflect the China country listing requirements, with guidance box for added clarification to refer to relevant parts and country listing registers on MPI website (hyperlink added). This replaces China OMAR Amendment 2 1.4 (1).</p> <p>(2) Guidance box:</p> <ul style="list-style-type: none"> <li>– Renamed Schedule 1 for Part 8, Part 8, 9 &amp; 10.</li> <li>– The term 'national food safety standard' is replaced by the term 'GB standard' to ensure consistency across the document.</li> </ul>	<p>(2) Guidance box:</p> <ul style="list-style-type: none"> <li>– addition of additional guidance information including the addition of information on the AQSISQ online filing system included to reflect F6/17 China: Imported food registration (issued 31 January 2017).</li> <li>– addition of new requirements replacing previous content under 'Food additives controls'.</li> <li>– addition of new requirements replacing previous content under 'China regulations for the implementation of Bad Records Administration on Imported Food'.</li> </ul>
<b>1.9 Official Assurances</b>		<p>(2) Guidance box:</p> <ul style="list-style-type: none"> <li>– Addition of clarification about 'free sale certificates and advice statements'.</li> <li>– Addition of reference to F14/17 regarding AQSISQ's proposed certification of a wider range of food imported into China.</li> </ul>

## Part 2 Meat and Meat Products

New Section	Format changes	Content changes
<b>Title</b>	Species of animals from which meat can be derived have been removed.	
<b>2.1 Application</b>	(1) Amended to add casings and tripe, and to delete deer velvet.	
<b>2.2 Definitions</b>	<p>Several previous definitions moved to Part 1 General. These are 'Casings', 'Meat and meat products' and 'Tripe'.</p> <p>Some terms changed to all lower-case to ensure consistency with the document. These are 'beef manufacturing trimmings', 'establishment of final control', 'line', 'official auxiliary', 'public health professional' and 'segregation'.</p> <p>Several definitions deleted as already in Part 1. These are 'E-cert', 'Export certificate', and 'Overseas Market Access Requirements'.</p>	<p>Definition of 'processing' – deleted.</p> <p>Definition of 'AHO', 'consumer-ready packaging', 'halal labelling' – addition of definitions from the consolidation of definition from OMAR notification 16/25 Meat and meat products halal requirements. 'AHO' definition is from Animal Products Notice: General Export Requirements for Halal Animal Material and Halal Animal Products (which replaced Animal Products (Overseas Market Access Requirements for Halal Assurances) Notice 2016 on 1 January 2017.</p> <p>Definition of 'processed meat products' – addition of definition for meat products that have been subjected to either cooking, drying or curing.</p>
<b>2.3 Prohibitions and restrictions</b>	<p>Section moved from previous 2.4 to ensure consistency with the document.</p> <p>Headings added to topics and information put in the following order:</p> <ul style="list-style-type: none"> <li>• (1) 'Restrictions over sourcing of animals'</li> <li>• (2) 'Processed meat and meat product restrictions'</li> <li>• (3) 'Meat and meat product restrictions'</li> <li>• (4) 'Casings restriction'</li> <li>• (5) 'Tripe restriction'</li> <li>• (6) 'Residue restriction'</li> </ul>	<p>(1) Restriction over the sourcing of products consolidated with no new requirements, except clarification that bovine and ovine meat and meat products intended for export to China must be derived from animals 'from herds' that have a clear Tb status. The guidance box is under d) and 'Mycobacterium bovis' elaborated to replace 'M.bovis', and the word 'and excludes' added for clarification. New guidance box was also added under b) to clarify the restriction on feeding of ruminant material is managed by the biosecurity ruminant protein regulations.</p> <p>(2) Addition of guidance box and clarification that processed meat products are not covered by existing meat protocols.</p> <p>(3) Addition of guidance box with clarification on chilled meat access and edible by-products restrictions.</p> <p>(4) Addition of guidance box to explain casings restriction and that access for semi-processed casings is being negotiated.</p> <p>Previous clause that referred to meat produced prior to AFSQ listing deleted to remove duplication, as this information is included in section '2.4 Official Approvals'.</p>

New Section	Format changes	Content changes
		<p>Previous guidance box about velvet being the only product that can be derived from feral animals has been removed as Part 2 now only includes meat and meat products, casings and tripe.</p>
<p><b>2.4 Official Approvals</b></p>	<p>Section renamed due to reflect style requirements of the document.</p> <p>Headings have been added to topics within the section and information has been put in the following order:</p> <ul style="list-style-type: none"> <li>• (4) Information to be submitted for initial CNCA and AQSIQ manufacturer registration</li> <li>• (9) Information to be submitted to request changes to CNCA and AQSIQ registration</li> <li>• (10) Information to be submitted to request removal of CNCA and AQSIQ registration</li> <li>• (12) Commencing product and export</li> <li>• (13) Ante-mortem and post-mortem inspection</li> <li>• (14) Official supervision of establishments</li> </ul> <p>(1) Guidance box about AQSIQ listing webpage was not correct, and is likely to need frequent updating so has been removed. The list of New Zealand Approved Premises for meat export to China reflects premises and activities registered by CNCA and AQSIQ. Hyperlinks to external websites (CNCA and AQSIQ websites) are replaced with hyperlink to MPI website.</p> <p>Table 1 and Table 2: format changes only</p>	<p>(1) Guidance box added to clarify that details of establishments registered by CNCA and AQSIQ is available on the MPI country listing website's 'List of Approved Establishments'.</p> <p>(2) and (3) are added from the consolidation of OMAR notification 16/25 'Meat and meat products halal requirements'.</p> <p>(4) Separate 'storage capacity information' and 'production capacity information' is now required by China, rather than 'establishment capacity information'. – Guidance: The forms are available through MPI VS.</p> <p>(6) SAT pre-listing audit requirement has now been moved out of the guidance box into the main text.</p> <p>(9) Guidance box – addition of clarification that operators may be required to provide the same range of information as had been submitted for initial registration.</p> <p>(10) Information to be submitted to request removal of CNCA and AQSIQ registration added. This is to clarify the existing process in place, and reflects what occurs for other commodities. Guidance box –addition of warning about impact on exports once establishments is removed from Chinese listing.</p> <p>(11) and Guidance box – Clarification added regarding listing recommendation process, and to ensure consistency in document, and to reflect what occurs for other commodities.</p> <p>Reference to halal approvals is included in section '2.5 Processing Requirements' and section '2.7 Packaging and Labelling'.</p> <p>Reference to antlers and velvet removed.</p>
<p><b>2.5 Processing Requirements</b></p>	<p>Headings have been added to topics within the section and information has been put in the following order:</p> <ul style="list-style-type: none"> <li>• (2) (a) Requirements for all establishments: general</li> </ul>	<p>(2) c) Potable water requirements (i-ix) A number of changes have occurred in the OMAR requirements for potable water including the following (as per Technical Brief 2016/10 clarification). This included amendments on water requirements for water. The references to DWSNZ have been removed and there are</p>

New Section	Format changes	Content changes
	<ul style="list-style-type: none"> <li>• (2) (b) Operational requirements for all establishments</li> <li>• (2) (c) Potable water requirements for all establishments</li> <li>• (3) Additional requirements for establishments approved to undertake slaughter and processing</li> <li>• (4) Specific additional requirements for establishments approved to process tripe</li> <li>• (5) Specific requirements for establishments approved to undertake halal production</li> <li>• (6) Additional requirements for establishments approved to undertake cold storage</li> </ul> <p>Previous clause (1) Deleted.</p> <p>Hyperlinks added to new clause (1) (was previous clause (2)).</p> <p>Previous clause (3) 'Pre-slaughter requirements' moved to '2.3 Prohibitions and restrictions'.</p> <p>(2) 'Requirements for all establishments: general' – includes content from previous clauses (4), (9), (11), (12) and (13).</p> <p>(2) (c) potable water tables (table 1-4) are no longer copied into this part and have been shifted to 'Schedule 1 for Part 2- potable water'. Table names are renamed accordingly.</p> <p>(3) 'Additional requirements for establishments approved to undertake slaughter and processing' – includes content from previous clauses (5), (6), (14) and (15).</p> <p>(5) Specific additional requirements for establishments approved to process tripe – includes content from previous clauses (7), (10) and (16).</p> <p>(6) Additional requirements for establishments approved to undertake cold storage – includes content from previous clause (8).</p> <p>Previous 'Operational requirements: packaging and labelling' moved to section 2.7.</p>	<p>significant changes to the management of water non compliances. The requirements for sampling frequency have been clarified. Please refer to TB 16/10 for common set of clarifications to operator and verifiers about water requirements including what is expected in the event of a water non-compliance.</p> <p>(iii) 'in accordance with the Animal Products (Specifications for Laboratories) Notice 2015'</p> <p>(3) e) xxiii) and xxiv) – Clarification added on cold boning, hot boning and warm boning. Guidance box added to explain that Chinese domestic requirements only allow cold boning.</p> <p>(3) e) xxv) – Clarification added that offal alternative processes have to be approved processes that have been evaluated and validated.</p> <p>(4) d) iii) 'Bins' included, and further elaborated to clarify expectation around washing regularly and before reuse, while requirement to 'sterilised regularly' has been removed.</p> <p>(4) e) v) Clarification that prohibition over the use of hydrogen peroxide involves products intended for export to China and that its use must be strictly controlled and with separation ensured.</p> <p>(5) Specific additional requirements for establishments approved to undertake halal production, with reference and hyperlink to Animal Products Notice: General Export Requirements for Halal Animal Material and Halal Animal Products added (which replaced Animal Products (Overseas Market Access Requirements for Halal Assurances) Notice 2016 on 1 January 2017.</p> <p>(6) words added to a) 'currently' and b) 'the room' for additional clarification.</p>
<p><b>2.6 Sampling and Testing</b></p>	<p>Title amended to reflect style requirements of the document.</p>	<p>(2) c), f), g) grammar amended respectively: 'a block of removed, 'meet' instead of 'met' and the word 'permitted' added.</p>

New Section	Format changes	Content changes
	<p>Headings have been added to topics within the section and information has been put in the following order:</p> <ul style="list-style-type: none"> <li>• (1) Sampling and Testing</li> <li>• (2) Microbiological Monitoring of Tripe</li> <li>• (3) STEC testing requirements</li> <li>• (4) Meat Maximum Residue Limits</li> </ul> <p>(4) a) Guidance box added – format change due to guidance language. Previous clause d) removed.</p>	<p>e) 'at least' added to specify an incubation time range rather than a strict time of 48 hours.</p> <p>(3) clarification added on STEC testing requirements on adult beef and bobby calves.</p>
<p><b>2.7 Packaging and Labelling</b></p>	<p>Headings have been added to topics within the section and information has been put in the following order:</p> <ul style="list-style-type: none"> <li>• (1) Packaging</li> <li>• (2) Labels on outer packaging including carcasses</li> <li>• (3) Labels on inner packaging</li> <li>• (11) Specific additional halal labelling</li> <li>• (12) Official marks and seals</li> </ul> <p>(1) 'Packaging' includes requirements in the previous clause (17) in the previous 2.5 'Processing Requirements'.</p> <p>(1) (f) Information in previous version of China OMAR about use differing carton handling options (option 1 or option 2) is no longer copied in this part, and have been shifted to 'Schedule 2 for Part 2 – Carton handling options'.</p> <p>(11) Additional section added about halal labelling requirements in addition to guidance information. Consolidated from OMAR notification 16/25 Meat and meat products halal requirements.</p> <p>(12) Official marks and seals information added under 2.7 rather than as a separate section to reflect style requirements of the document.</p>	<p>(2) (c) (iii) Guidance box: clarification added regarding "Keep frozen -18 °C": Once the temperature requirements are formalised, the OMAR will be updated.</p> <p>(11) b) Guidance box – clarified 'H' mark does not constitute a halal label or labelling claim, therefore its use is not restricted. This is consolidated from the advice currently included in the explanatory note to OMAR Notification 16/25. Previous notes on halal and general labelling requirement removed, as it is incorporated into China OMAR. Reference to the separate Notice is now not required.</p>
<p><b>2.8 Storage and Transportation</b></p>	<p>Guidance about China standards requiring frozen meat to be stored and transported moved into this section.</p>	<p>Guidance about China GB standard added. Once the temperature requirements are formalised, the OMAR will be updated.</p> <p>Clarification of scope: (1) (a) 'tripe and casings'; and (1) (b) 'any consignments'</p>
<p><b>2.9 Official Assurances</b></p>	<p>Information reordered to clarify that products must only be certified using the negotiated bilingual certificates in AP E-cert.</p> <p>(5) Guidance box added – format change due to guidance language.</p>	<p>(2) Guidance box added to explain that access for semi-processed casings is being negotiated, and to notify exporters of the error in the title of CN105.</p>

New Section	Format changes	Content changes
		(3) and guidance box – Halal requirements added to ensure that exporters understand that halal certificates must be provided for all products labelled as halal.
<b>Schedule 1 and Schedule 2 for Part 2</b>	<p>Moved from previous version of OMAR part (13) Operational requirements: potable water; (17) Operational requirements: packaging and labelling to separate Schedule. The title created has to reflect style requirements of the document.</p> <p>Schedule 2 for Part 2 – Format change only</p>	Schedule 1 for Part 2 – Potable water updated, see highlighted parts, and please refer to Technical Brief 2016/10 for further guidance.

## Part 3 Deer Velvet and Antler

New Section	Format changes	Content changes
<b>Title</b>	Addition of new section, replacing previous Part 3 (now Part 4 and 5)	
<b>3.1 Application</b>		(1) New scope added, applies to deer velvet and antler products intended for human consumption. New guidance box added – provide information about the recent AQSIQ audit, new AQSIQ measures and that MPI will be developing a bilateral arrangement for the export of deer velvet and antler products intended for human consumption.
<b>3.3 Prohibitions and Restrictions</b>		(1) and guidance box – Restriction over sourcing of products added.
<b>3.4 Official Approvals</b>	Headings have been added to topics within the section and information has been put in the following order: <ul style="list-style-type: none"> <li>• (2) Information to be submitted for initial AQSIQ manufacturer registration</li> <li>• (3) Information to be submitted to request changes to AQSIQ registration</li> </ul>	(1)- (5) – new requirements added.
<b>3.5 Processing Requirements</b>		(1) and Guidance box – Confirms hygiene requirements.
<b>3.7 Packaging and Labelling</b>	Headings have been added to topics within the section and information has been put in the following order: <ul style="list-style-type: none"> <li>• (1) Traceability</li> <li>• (2) Labelling</li> <li>• (3) Packaging</li> </ul>	(1) - (2) – new requirements added.  (3) Guidance box added – Carton handling do not apply (was in previous OMAR (17) e (vi) guidance box)
<b>3.8 Storage and Transport</b>		Guidance box added about cold storage temperature and separation.
<b>3.9 Official Assurances</b>		(1) Export certificate Template CN107 must be used. Guidance box added about batch and lot number as required in 3.7 (1) to be included on export certificate.  (2) Certification requirement on ‘batch or lot number’ clarified – to be included on the export certificate under ‘lot number & marks’.  (3) and guidance box on signing the export certificate and official deer vet signatories list (with hyperlink) added.

## Part 4 Dairy Products Other than Infant and Young Children Formula

New Section	Format changes	Content changes
<b>Title</b>	Now amended to only include dairy products other than infant and young children formula. The term 'dairy products' used rather than 'milk and milk products'.	
<b>4.1 Application</b>	Now amended to only include dairy products other than infant and young children formula.	(1) Addition of species of animals from which dairy products can be derived. (2) Clarification added that export samples not for human consumption are excluded.
<b>4.2 Definitions</b>	Definitions for 'dairy products' and 'infant and young children formula' moved to 'Part 1'.  Definitions referring to infant and young children formula in previous section '3.2' moved to '4.2'.	'UHT'– addition of definition.
<b>4.3 Prohibitions and restrictions</b>	Previous clause (3) about infant and young children formula moved to new section '4.3'.	
<b>4.4 Official Approvals</b>	Chinese translation for formula milk powder and fortified formula milk powder deleted.  Information to be submitted for initial manufacturer registrations re-formatted so it is no longer in a table to emphasise that provision of all of this information is mandatory.  Official approval requirements for infant and young children formula in previous section '3.4' moved to new '4.4'.  Clarified that requirements outlined in 4.4(2)(a) also applies to 4.4(2)(b), 4.4(2)(c), and 4.4(2)(d)	(2) b) Clarification that pasteurised milk excludes milk that has been subjected to retort pasteurisation. Requirements to provide information about CIP and raw material checks removed from the requirements for new CNCA listing for pasteurised milk; (2) c) New guidance box clarifying the terms 'pasteurised milk', 'fresh milk', 'UHT' and 'sterilised milk'; (2) d) New additional requirements for initial yoghurt or fermented manufacturer registration added to reflect CNCA's new additional application form.
<b>4.5 Processing Requirements</b>	Processing requirements for infant and young children formula in previous section '3.5' moved to new '4.5'.	
<b>4.6 Sampling and testing</b>		(1) Clarification that pasteurised milk excludes milk that has been subjected to retort pasteurisation, and that test results for coliform testing must be from a MPI recognised laboratory.
<b>4.7 Packaging and Labelling</b>		New guidance added about dairy products that are complementary foods and complementary food supplements intended for infants over 6 months and young children up to 3 years of age.
<b>4.9 Official Assurances</b>		(1) New clause clarifying that the certificate template CN600 available in AP E-cert must be used for all exports, including trade samples; New guidance box about certification of samples for testing and evaluation.  (2) b) 'batch or lot identifiers' added.

<b>New Section</b>	<b>Format changes</b>	<b>Content changes</b>
		(2) e) clarification on pasteurised milk that has not been subjected to UHT processing or retort sterilisation, and that either an email from a recognised laboratory with batch numbers and test results or a product analysis certificate can be provided.

## Part 5 Infant and Young Children Formula

New Section	Format changes	Content changes
<b>5.1 Application</b>	(1) Addition of species of animals from which infant and young children formula can be derived.	
<b>5.2 Definitions</b>		Definition of 'standard hygiene area' amended so that stores are not included in this area.
<b>5.3 Prohibitions and restrictions</b>		(2) Addition of new requirement stating that infant and young children formula must not contain colostrum, hydrogenated fats and oils.
<b>5.4 Official Approvals</b>	<p>Headings have been added to topics within the section and information has been put in the following order:</p> <ul style="list-style-type: none"> <li>• (2) Information to be submitted to MPI for initial CNCA registration</li> <li>• (3) On-going updates to MPI about products intended for export to China</li> <li>• (4) New product ranges of infant and young children formula</li> <li>• (6) Information to be submitted to request changes to CNCA infant and young children formula registration</li> <li>• (7) Registration of infant and young children formula</li> <li>• (8) Rules for commencing manufacturing and export</li> <li>• (9) Information required when exported products are disqualified from import into China</li> <li>• (10) Information to be submitted to request removal of CNCA manufacturer registration</li> </ul> <p>Information to be submitted for initial manufacturer registrations re-formatted so it is no longer in a table to emphasise that provision of all of this information is mandatory.</p>	<p>(2) a)-c) Clarification added on information to be submitted.</p> <p>(3) Requirements in previous table in '3.4(5)' now required to be submitted on a biannual basis. Addition of dates: 31 October and 31 March each year as submission deadline.</p> <p>(5) Clarification added about copying in verifiers into information about new product ranges and checking of labels.</p> <p>(6) a)-b) Clarification added about when operators need to notify MPI about changes that may impact on their CNCA infant and young children registration.</p> <p>(7) New information added about CFDA formulation or recipe registration.</p> <p>(2) c) ii), (6) and (10) Register addition/ amendment / deletion Request Forms are updated, and available on the OMAR website under 'Other Information' with hyperlink added.</p>
<b>5.5 Processing Requirements</b>		(3) New guidance box added about compliance with GB standards and cross border e-commerce.
<b>5.7 Packaging and Labelling</b>		(1) New guidance box added about CFDA checks of labels.
<b>5.9 Official Assurances</b>		(1) New clause clarifying that the certificate template CN600 or NZ1000 available in AP E-cert must be used; (1) b) ii) 'Batch and lot identifiers' added; New guidance box about certification of samples for testing and evaluation.
<b>Schedule 1 for Part 5</b>	The previous title 'Annex 1' amended to reflect style requirements of the document – Additional Information to Support CNCA Infant formula and young children formula registration	New requirement under 'Environmental Management' added involving effective separation between differing hygiene areas, between wet from dry processing areas; critical hygiene areas to be kept dry.

## Part 6 to Part 11

<b>Part 6 Fish and Fish Products</b>		
<b>New Section</b>	<b>Format changes</b>	<b>Content changes</b>
<b>6.3 Prohibitions and Restrictions</b>	Guidance box – hyperlink added to the list of approved species and products (chilled or frozen).	
<b>6.4 Official Approvals</b>	Previous OMAR Guidance box under section 4.4 deleted, as it is not an official approval. Clarification on heavy metals restriction added under section 6.6.	
<b>6.6 Sampling and Testing</b>		Guidance box – China has strict limited for heavy metals such as Cadmium and Mercury with no exemptions for species such as queen scallops and Bluff oysters.

<b>Part 7 Honey and Bee Products</b>		
<b>7.3 Prohibitions/ Restrictions</b>		(2) added for clarity – Bee products being exported to China may be of overseas origin whereas honey must only be of New Zealand origin.
<b>7.9 Official Assurance</b>	(1) a) i) Guidance box – removed ‘therefore, exporter should choose attestation NZ400/5V when raising an export certificate’ as this is already mandatory as per (1) a) i)	

<b>Part 8 Animal Products Not Intended for Human Consumption</b>		
<b>8.1 Application</b>		(1) Guidance box – reference to Part 11 for bovine blood products added. This replaces previous ‘A separate Part for bovine blood products is currently under consultation and will issued in due course’.
<b>8.9 Official Assurance</b>		(2) Guidance box – Included option for a CN206 template for use as a default certificate for China to allow the full processor address to be shown.
<b>Schedule 1 for Part 8 – Guidance to export of non-edible animal products to China</b>	Previously ‘Annex: AQSIIQ list of countries eligible to export non-edible animal products to China (guidance) in previous version OMAR part 6 page 6 of 6. Table format change to reflect style requirements of the document.	Table updated to include deer to ‘Raw hide and skin’ as Eligible to Export Non-edible Animal Products to China, recognizing historical trade. Version updated to 18 August 2016 (latest version).
<b>Schedule 2 for Part 8 – Guidance to animal feed and feed additive import registration</b>	Previously ‘Annex – China: Animal Feed and Feed Additives Import Registration (Guidance) in previous version OMAR part 1 page 11 of 12. Numbering format changed due to reflect style requirements of the document.	

<b>Part 10 Fishmeal</b>		
<b>10.3 Prohibitions/ Restrictions</b>		(1) (2) Clarification added.
<b>10.4 Official Approvals</b>	Headings have been added to topics within the section: <ul style="list-style-type: none"> <li>(2) Information to be submitted for AQSIQ registration</li> </ul>	(1) includes 'blended', and (2) clarification added to include listing and information to be submitted for registration.  (2) Information to be submitted for AQSIQ registration; and guidance box – registration questionnaire is available through MPI VS.
<b>10.5 Processing Requirements</b>	Requirements on fishmeal products not to contain imported fish meal products (or imported fish products) or ruminant ingredients deleted.	(4) Guidance box – clarification added for established premises.
<b>10.6 Sampling and Testing</b>	Table format and title change.  Previous China OMAR 8.7 (3) guidance tables removed.	(1)- (4) Table 3 added.
<b>10.7 Packaging and Labelling</b>		(2) Guidance box – clarification added.

<b>Part 11 Bovine Blood Products</b>	
Revokes and replaces China OMAR notification 17/23: Bovine blood products.
